Proposed Amendment to Section 1-4  
of E.O. 12065

1-402 Information subject to automatic declassification pursuant to limitations on duration of classification specified in prior orders shall not be automatically declassified, but shall be reviewed to determine if national security considerations require continued classification. Agency heads designated pursuant to Section 1-2 and the heads of Agencies which had original classification authority under prior orders, may exempt specific categories of information under their jurisdiction from this review requirement.
